SUMMARY

Full Stack Web Developer with hands-on experience building end-to-end web applications using Spring Boot, Node.js, React.js, and MongoDB. Proven ability to develop REST APIs, responsive user interfaces, and scalable backend systems. Skilled in Java Full Stack Development with expertise in MVC architecture, database design, and user authentication using JWT.

TECHNICAL SKILLS

- **Programming** :Java (Core Java, OOP), Python, JavaScript (ES6+)
- **Frontend** : React.js, HTML5, CSS3 (Flexbox, Grid), Bootstrap, Responsive Web Design, JavaScript DOM
- **Backend** : Spring Boot, Core Java, Node.js, Express.js, REST API Development
- **Databases** : MySQL, MongoDB, SQL Query Optimization
- **Authentication & Security** : JWT (JSON Web Tokens), Bcrypt Password Hashing, Session Management, User Authentication
- **Tools** :Git, GitHub, VS Code, Eclipse IDE, Postman (API Testing), Google Colab.

EXPERIENCE

Java Full Stack Development Intern | Innovation Tech Tree LLP | Dec 2025 – Apr 2026

- Developed full stack web applications using Java, Spring Boot, and Frontend technologies across 4-month internship
- Built REST APIs and implemented backend services using Spring Boot and Core Java
- Designed and developed responsive user interfaces using HTML5, CSS3, Bootstrap, and JavaScript
- Implemented JWT-based user authentication and session management
- Worked with MySQL database for data persistence and optimization

Java Full Stack Intern | NDVTechsys Solutions

| May 2025 – Jul 2025

- Developed 5+ responsive web pages using HTML5, CSS3, Bootstrap, and JavaScript
- Built Java-based applications applying Core Java, OOP concepts, and MVC architecture
- Implemented CRUD operations using MySQL database
- Practiced REST API integration and consumption concepts

PROJECTS

AI Interview Automation System | AI-Based Web Application

Role : "Frontend Developer & UI/UX Designer."

- Led frontend development and UI/UX design using HTML5, CSS3 (Flexbox/Grid), JavaScript (ES6+) with responsive dashboard for candidate registration, login, interview modules, and results display.
- Integrated responsive frontend with Python Django backend and REST APIs; implemented interactive real-time score visualization, performance analytics dashboard, and candidate feedback display using DOM manipulation.
- Built semantic HTML5, accessible CSS3 responsive layouts with mobile-first design; created interactive UI components for candidate evaluation workflow, admin panel functionality, and form validation.
- Engineered full stack AI integration combining frontend with Django backend, NLP, and Machine Learning algorithms; optimized SQLite database for 100+ candidate interview data processing and deployed scalable automation system.

Technologies Used :HTML, CSS, Python, Django, NLP, Machine Learning, SQLite

ShopEase — Full Stack E-Commerce Website

Role : "Full Stack Developer".

- Built complete full stack e-commerce platform using Node.js, Express.js, MongoDB with REST API design, JWT authentication, and Bcrypt password hashing; developed responsive Bootstrap UI and admin dashboard managing 100+ products and user accounts.
- Implemented secure user registration and login with Bcrypt password hashing and session management for seamless user experience.
- Designed fully responsive UI using Bootstrap with product cards, category navigation, hero section, and interactive shopping cart functionality.
- Optimized MongoDB database schema and implemented CRUD operations for efficient product queries and inventory management; built secure REST APIs ensuring seamless frontend-backend data flow.

• **Technologies Used** :HTML5, CSS3, Bootstrap, JavaScript, Node.js, Express.js, MongoDB, EJS

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Sree Rama Engineering College, Tirupati (JNTUA)

| July 2022 - May 2026

CERTIFICATIONS & ACHIEVEMENTS

HTML Essentials – Cisco Networking Academy

| May 2026

Meta Front-End Developer Certificate – Coursera

| May 2026

Web Application Development Certification
